## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 2 and 4-11 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or teach a linear actuator including magnet stoppers arranged on both ends of a magnet by insert molding means in combination with the other features of claims 4 and 10. The prior art of record does not disclose or teach a linear actuator having a rotor unit including a field magnet arranged on the outer periphery of a resin portion and conversion means made of a second resin material in combination with the other features of claim 8. While claim 8 was previously rejected in the final office action of 3/1/2004 by a combination of four references, the examiner agrees with applicant that there is insufficient motivation to combine those references to produce a device similar to that of the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Judson H. Jones whose telephone number is 571-272-2025. The examiner can normally be reached on 8-4:30 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Darren Schuberg can be reached on 571-272-2044. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
